## A STRANGE DREAM

Last night I had a strange dream - it was really very weird!

It all started when I was sitting in a café, near some strangers that were talking about a monster that would come to our town and destroy it! When I heard about it, I was very terrified.

I wanted to learn more information about it, so I started asking several people. I learnt a lot of scary facts, such as the great size of the monster and the day it would come to our town. But the most creepy piece of information was that I was the one who should front it!

Luckily, I found the courage to do it, but I still had a little fear. While I was anticipating to do my duty, I suddenly woke up and men got ready for school again.

OMG!

## A STRANGE DREAM!

Last night, I had a strange dream. I dreamed that I had gone to a beach with my family. We swam into the deep waters in order to seek shells. After a little time I couldn't see where my brothers and sisters were.

At that moment the God Poseidon appeared in front of me and took me with him a long way to the island of Atlantis. I saw there many different people who went from one place to the other in strange cars which were flying. There were also few buildings but many strange kinds of animals. They did what they wanted with small effort.

In the meantime I was full of anxiety and I was almost crying. As a miracle Alexander the Great appeared with Mermaid, his sister, who helped me to reach the place where my sisters and brothers were, with mixed feelings of joy and fear.

LAST NIGHT, I HAD A STRANGE DREAM ...

I found myself standing out of a big building. I took a look around me to see famous actresses, actors, singers, photographers and reporters walking "the red carpet". Exactly... I was attending the "movie awards", with a new, expensive camera in my hands and a VIP identity-card in my pocket. What could I say? My lucky day, I guess!

I entered a big room with a stage and lots of seats. All celebrities were filling the room, holding glasses of champagne. A voice was heard from the stage: "Ladies and gentlemen, I welcome you to the "movie awards, 2016!". I couldn't believe I was actually there! An opportunity of one word was in front of me... till I heard my mom's voice: "Alexia, wake up, you have school today!"

I have to say mothers can be big spoilers sometimes...

# A STRANGE DREAM

I'll never forget that strange dream I saw one night when I was five years old. My family and I were at our country house for the summer holidays.

We used to have early dinners and then go for walks at the seaside. At about 9:30pm my mum put me to sleep. That night I didn't want to go to bed and I was crying. First she read me a story and then she held my hand for a while. So I slept. I remember that as soon as I closed my eyes, I started thinking the story that she had read me and dreaming about it.

I was the tin soldier! I had only one leg! I couldn't walk but I was looking at the beautiful dancer all the time. Then my owner threw me out of the window. I was so scared. I fell into a small river and a big fish ate me! That was so dark and frightening! I was screaming and sweating in my sleep. It was terrible!

Later a fisherman caught me with the fish and a woman prepared it for cooking. So she found me! I was back at my house!!! I had dreamt all the fairytale. Only I was the hero!

A few hours later, it was morning and I woke up. I described my dream to my mum, who suggested to read another kind of story before bed from that time!!!!

# A Strange dream

Last night, I had a strange dream. One sunny day I woke up and started getting ready for school. When I arrived there the teachers announced to us that we didn't have any classes.

So I returned home, but there wasn't anyone there. I was waiting for my family. "They may have gone down to the Centre of Maraïssi to shop", I said to myself. The time was passing, but they didn't come home. I was free to do whatever I wanted, but I didn't feel good without anyone home.

Then I decided to look for them. I went out, but I couldn't find them. At the same time I heard a strange sound and I jumped out of my bed. It was just a bad dream!

# A strange dream!

Last night I had a strange dream. I dreamed that I went swimming to the sea. For a moment I dived and I was in a fantastic place in the sea. The water was very clean and I could see the beautiful fish very well.

Suddenly I saw in front of me a curious place. Later I understood that it was a place with ruins of an ancient city. I found statues, artworks, pots, pieces of marble and other things. I was very happy for the discovery!

Then I came back to the beach and I told my adventure to many people. Finally the researchers looked for the place, found it and started the considerations. I was very excited!

Suddenly I heard a noise. It was the alarm clock...!

Last night, I had a strange dream. I dreamt that I was on a school trip with my friends, and we were in a big bus.

A few moments later, one of my friends had to use the bathroom, so the bus stopped. When she got out of the bus, the bus driver continued driving. We all got angry at him and we told him that he wasn't doing his job correctly, but he didn't really care.

When we asked him if we could leave the bus, we went out to look for the girl. We saw a slide covered with ice, and we slid on it. We then saw a big gate in front of us. We went through the gate, and there was an enormous garden and a huge mansion. A bee started chasing us, so we tried to go into the mansion. We stayed there for a long time and waited for the bee to go away. The bee was too strong, and it was able to open the door and get inside the house. We ran outside, and started dancing happily.

It was a big dream, and a funny one too. I woke up very late that morning.

Last night I had a strange dream:  
It was a hot morning in Greece. I had just arrived at my hotel. The receptionist asked for my passport. I looked in my bag to find my passport, but it wasn't there. I began to panic.

I searched my pockets frantically but I was sure that my passport was missing. I tried to retrace my steps and remember the last time I had seen it. It dawned on me that I might have left it at the cosy cafe down the street where I had breakfast earlier on. As I had nothing to lose, I decided to go and have a look. I said to the receptionist "I'll be back shortly" and angrily I raced to the door.

I arrived at the cafe but there was no sign of my passport on my table. I couldn't find the waiter who had served me so I asked another one. but he had no idea what I was talking about. He advised me to ask another waiter. As soon as the waiter came out of the storage room he recognised me. He approached me with a smile on his face.

The waiter told me... "You forgot to take this with you" taking my passport out of his pocket. I breathed a sigh of relief. I couldn't believe my good luck! I was truly grateful to the young man who had saved me from a terrible nightmare. What does this dream mean anyway!?
